

Welcome to our Third International Learning Design Challenge: *Move-It-Online*

Led by Professor Diana Laurillard from The London Knowledge Lab, Institute of Education in collaboration with Building Community Knowledge, MirandaNet, Creative Digital Solutions and Hands-ON ICT project.

The Aim

Our 3rd online International Learning Design Challenge is about **understanding the impact of taking teaching and learning activities online**. We will provide ways of describing and planning effective teaching ideas, especially those that illustrate 'pedagogically purposeful uses of technology for learning'. The Challenge is to transfer this to your own optimal way to *move it online*.

To sign up and find out more

- Sign up for the challenge: http://www.coursesites.com/s/_LDC
- Email: learningdesignercommunity@gmail.com
- Twitter: @LDtool
- Website: <http://wp.me/P3EqBU-al>

The Challenge

Our ***Move-it Online*** challenge is to invite you to design and plan for the optimal use of learning technology in your own context, with the help of two new tools for teachers:

- the *Learning Designer*, for designing, sharing and reviewing learning experiences that may be conventional, blended, or wholly online;
- the *Course Resource Appraisal Model* (CRAM), for planning and estimating the learning benefits and teaching costs for a session or module, that may be conventional, blended, or wholly online.

Overview of the Schedule

Starts 30th October for introductions and starter packs with your plan for each week

Live online events from 1:00-1:45 pm (UK time): November 3rd, 10th, 17th, 21st, 24th and December 1st

Live online discussion forums from 1 pm Thursday 13th November from 1:00 pm

Up to 4 open badges: Move-It-Online Designer, Move-It-Online Experimenter, Duo Move-It-Online and Move-It-Online Discussion Champion
